Account settings

In the Account Settings section, you can manage various aspects of your profile and account on our **community forums**. This page allows you to customize your experience and ensure your account's security.

Accessing Account Settings

To access your Account Settings, follow these steps:

1. Log in to your account on our website.
2. Click on your user profile picture or username in the top-right corner.
3. Select "Account details" from the dropdown menu.

Managing your Profile

Profile picture

Your profile picture is a representation of yourself on our community. To change your profile picture:

1. Go to the "Profile Picture" section in Account Settings.
2. Click the "Change Profile Picture" button.
3. Upload a new image or select one from your existing uploads.
4. Adjust the image as needed and click "Save."

Basic Information

You can edit your basic information to keep your profile up to date. You can modify, but this is not limited to:

- Forum username
- Email
- Avatar and profile banner
- Location
- About you
- Identities

Signature

You can also edit your signature so that it shows with your forum threads, forum posts, and conversation messages. This is editable at the "Signatures" area.

Account security

Keeping your account secure is crucial. You can access this at "Password and security".

2-factor authentication is one of the important security features! We always recommend keeping this on.

Verifying your account

If you're looking into verifying your account, check out [this article](#)

Verifying your forum account

Are you looking to link your Minecraft account with your forum account? Follow these simple steps to get verified and enjoy a seamless experience between the two platforms.

≫ Verification Process

1. **Login to the Minecraft Server**
   - Launch Minecraft and log in to the server where you want to verify your account.
2. **Enter the Verification Command**
   - Type the following command in the Minecraft chat: /verify <forum account name>
     - Ensure that you use your **forum account name**, not your Minecraft username, if they are different.
3. **Check Your Forum Inbox**
   - After executing the command, check your forum inbox for a message sent by the verification system.

   > Don't receive a message? Please contact support.

4. **Retrieve the Verification Code**
   - In the message, you will find a verification code. Make note of this code; you'll need it for the next step.
5. **Verify Your Minecraft Account**
   - Go back to the Minecraft chat and type: /verify key <code>
     - Replace <code> with the verification code you received in the forum message.
6. **Verification Complete!**
   - Congratulations! You are now verified. Your forum account is linked to your Minecraft account.
   - You should now see your Minecraft avatar on your forum messages.

You should now see your Minecraft avatar on your forum messages!

> There is a 15 minutes cooldown between requests. Please ensure you type in the right forum account name. If you send too many requests, you may be locked out!

≫ Unlinking Your Accounts

If, for any reason, you wish to unlink your accounts, follow these steps:

1. **Initiate Unlinking**
   - In the Minecraft chat, type: /unlink
2. **Confirm Unlinking**
   - You will receive a prompt to confirm the unlinking process. Type: /unlink confirm
3. **Accounts Unlinked**
   - Your forum and Minecraft accounts are now unlinked.

≫ FAQ (Frequently Asked Questions)

Q1: What should I do if the verification code doesn't work?

Double-check that you entered the code correctly. If the issue persists, contact our support team for assistance.

> You can contact us at support@inferris.com, engage in a forum conversation with a staff member, message a staff member in-game, or @mention us on Discord.

Q2: Is account verification required to participate in forum discussions?

Verification is not mandatory, but it enhances your forum experience by providing you with extra privileges and a unique forum group reflecting your rank (if you have one).

Q5: Can I change my linked forum account name?

Absolutely! You can modify your forum account name, even if it's linked. To do so, navigate to your [account settings](#) and make the desired changes. Importantly, altering your forum account name won't impact the connection with your Minecraft account, as your original Minecraft account name will continue to be associated with your forum account. This flexibility allows you to personalize your forum identity without affecting your Minecraft account's linkage.
